

2022 Annual Report

Special to the MTC Trail Letter

September-October 2023

2022 was a year of building and modernizing for the Montour Trail Council, reflected in everything from the grind of trail surfacing to the geek-fest of data management. These improvements positioned the organization to move forward in greater efficiency, taking the greatest advantage from every precious volunteer hour.

We have the biggest toys...

Heavy machinery of trail building acquired this year includes an additional excavator, a roller, an additional dump truck, and a trailer. Substantial repairs to our vintage grader were also accomplished. These enhancements have allowed our volunteers to increase their daily placement of trail surface from 1200 feet to 1600 feet. Crews laid down seven miles of trail surface during the year.

...and an updated Trail Patrol.

Under new leadership, the Trail Patrol experienced a 50 percent surge in growth. The patrol is made up of men and women who are volunteering their time and efforts to see that the experience of using the trail is enjoyable and safe. Members are provided with cycling jerseys or armbands, depending upon their preference in trail activity. The group is working to strengthen relationships with local law enforcement and EMTs.

Like I said, we have geeks!

Not all of our volunteers can be found trailside. Others can be found within wi-fi distance of a convenient router. Our techies completely rebuilt our website, goaded on by a particularly invasive hack. We also implemented a new membership database, allowing integration with our website, online event signups and integrated bulk email. The Technology Committee was merged with the GIS (Geographic Information Systems) working group to take better advantage of the overlap in skill sets.

We needed more space...

After 22 years in our current office, something began to seem amiss. Some board members were relegated to the hallway during board meetings, and clawing one's way out of the room after the meeting was often a lengthy process. It became necessary to move a number of boxes of maps and office supplies to get to the boxes of t-shirts. It was time to find a bigger office. We formed a team to evaluate available space, based on three primary criteria: no stairs, a conference room big enough to hold 25 people, and enough parking for a board meeting. We signed a lease for space on Boyce Plaza Road in Upper St. Clair in December, and plan to move in early 2023.

...and built more trail.

Our newest section of trail opened in South Park, adding 0.7 miles to our mainline trail. As an added bonus, the builder of the Summit Station complex built the bridge over Summit Drive for us. A ribbon-cutting ceremony was held on November 14. Work continued on other improvements, including completion of the crossing at Stewart Road, connectors at Muse and Coraopolis, long-term planning for crossing Rt. 51 in Large, and streambank protection projects at multiple locations.

A few other miscellaneous things:

The Gateway Engineers Tour the Montour family-fun ride in September celebrated its 20th year with a record take of \$64,000.

We received a quite unexpected \$100,000 bequest from a local resident.

Volunteer projects were undertaken by EQT, Ansys, the Boy Scouts, a Girl Scout Gold Award candidate, and an Eagle Scout candidate.

And, as in every year, credit for our success goes to our many dedicated volunteers and the thousands of hours they donate to what is clearly a labor of love.

Thank you 2022 Sponsors and Special Donations!
