

Meet the
Westland
Friends

of the Montour Trail

- ◆ **The Westland Friends is the newest friends group on the Montour Trail.**
- ◆ **We maintain the 4.2-mile Westland Branch, as well as miles 21.0 to 21.9 of the mainline trail. Our storage facility is located at the Galati Trailhead.**
- ◆ **Our section of the trail passes primarily through farmland and rural countryside. Don't be put off by the first half-mile, which passes by an industrial area. You'll be with nature soon enough!**
- ◆ **Our activities include mowing the trail fringe, clearing brush, removing fallen trees, fixing ruts, battling invasive plants, repairing rodent damage, emptying trash cans, and more.**
- ◆ **Donations will go to buying tools, fuel, and supplies to support these activities. Our longer term goal is to add a second work support station at the Westland Trailhead to make it easier for our volunteers to get to that end of the branch.**
